

ANIMAL EDUCATION FOR YOUR STUDENTS!

Choose from 6 programs:

All available as an assembly, field trip or in-class program.
All programs align with AZ K-12 Academic Standards.

About Animal Programs for Educators

Add excitement to your curriculum with the Arizona Humane Society's Compassion in the Classroom animal programs. Our fieldtrips, assembly programs and classroom visits provide age appropriate lessons that include a wide range of STEM-focused hands-on learning. Programs can be customized to fit your current classroom topic or specific learning objectives. All visits/field trips include live animal interactions. Programs are free to Title I schools in Maricopa County.

Pet Talk

Students will learn basic information about the many ways that animals (and people) communicate their needs and emotions. Understanding what an animal is saying increases empathy and respect and can also keep children safe. Students will use their observational skills to interpret our pet's body language and vocalizations.

Classy Critters

Animals have class! Classification, that is. In this interactive classroom program, we'll learn about the five different classes of vertebrates, amphibians, reptiles, fish, birds, and mammals and discuss what makes them different.

Animal Doctors

Let your students dive in, dig deeper, and explore the world of veterinary science. Students will compare animal vs. human doctors, listen to heartbeats with stethoscopes, explore the basics animal care and get to be an animal doctor for the day!

Animal Rescue Squad

Explore the world of AHS' Emergency Animal Medical Technicians! Students will hear stories of survival, meet some of our animal celebrities, and learn how they can make a difference for animals in our community.

Too Much of a Good Thing

Too Much of a Good Thing offers a fun look at the serious issue of pet overpopulation and explores what might happen if pets weren't spayed or neutered. Incorporated with hands-on math activities, we create a fun and open discussion about how personal choices can have a community-wide impact.

Animal Advocates 101

Animal Advocates 101 explores all aspects of the human-animal bond, cultivating compassion and encouraging students to grow into responsible pet owners and advocates for the animals they love!
